English - Fluent

- **Tailordom – (Contract)**

**Software Development**

JAN 2023 – SEPT 2023

Tailordom is an ultimate website builder that enables you to create well designed websites for your business with no-code.

**PROJECTS**

- **Face Pass** — A face recognition system, built for the Nigeria Immigration Service Headquarters (Abuja). Set to be installed in all of the international airports in Nigeria, to authenticate and verify travelers. I created the email templates for Face Pass.
- **Smart Medik** - A product being built to improve health care with cutting edge diagnostic and prescriptive solutions. I worked on the front-end of smart medik.
- **League of Shoguns** - An exciting battle RPG Japanese themed web3 game. I created the landing page of League of Shoguns. <https://www.shoguns.world/>
- **Tailordom** - Tailordom is an ultimate website builder that enables you to create well designed websites for your business with no-code. I am working on the front-end of this project. I built the landing page. <https://tailordom.com/>
- **WRKR** - WRKR is a company with the mission to change the way personal information is shared during important high-impact life events. I worked collaboratively with other teammates to create this website. <https://getwrkr.com/>
